Just like tha--ah...
SLIP
AH!
Take it slow, now.
WOBBLE...
Easy...
WOBBLE...
As we continued doing leg exercises together with the arm exercises, Reszurre more or less learned to move her new legs. To stimulate the thigh muscles more, I thought I'd have her try some more advanced motions, like sitting up and standing down, while I'd be supporting her with my hands, but...
It wasn't smooth sailing like I hoped it would be. My body didn't exactly know how to act as a support, so our exercise session began by me losing my balance and falling to the floor together with Reszurre.
THUD
TWITCH
I-I'm sorry...
No, it's my fault... I slipped first... Did that hurt you...?
Huh?
We tripped... and... his face is so close... this is too embarrassing...
I can't ...
You don't need to help me to stand ...
Huuh ?!!
Difficult road ahead.
